

Dan Wilson

Manager, Municipal Finance

Dan Wilson is a Manager with Watson & Associates Economists Ltd. Since joining the company in 2006, Dan has worked on numerous water and wastewater studies, development applications approvals process user fee studies, development charge studies, and asset management related studies.

Prior to joining Watson & Associates, Dan worked for the Townships of Woolwich and Centre Wellington in the capacity of Director of Finance & Treasurer and Financial Manager/Deputy Treasurer respectively. In those roles, Dan was responsible for many municipal finance functions including operating and capital budgeting and forecasting, financial reporting, policy setting, purchasing, financial analysis, property taxation, and year-end procedures. Before joining the municipal sector, Dan was a Senior Accountant with a Chartered Accounting firm, specializing in public sector auditing (municipalities, school boards and hospitals) as well as private sector (manufacturing and service corporations). Other responsibilities included the preparation of numerous corporate financial statements and corporate tax returns.

In 2005, Dan was a part of the Associate group that provided comments and potential impacts to the Public Sector Accounting Board (PSAB) in the creation and implementation of handbook section 3150, relating to municipalities accounting for all tangible capital assets on their financial statements.

Dan is a Chartered Accountant and holds an Honours Bachelor of Business Administrative degree from Wilfrid Laurier University.
